GREEN STAR NEEDLEPO↑INT PAT↓ERN

This is the pattern exactly as stitched in the photo above. I worked this pattern on 10 ct. canvas and the final piece was approximately 7.5" square.

It was stitched in Paternayan wools, number 221 (blue) and 652 (green), but feel free to get creative and use whatever colors you like.

[F↓IXED] STAR NEEDLEPO↓INT PATTERN

Here is the pattern a little less wonky. If I were going to stitch it again, I'd probably try this pattern. If you like your star a little less irregular, try this pattern. Let me know how it turns out!

Recommended colors: Paternayan wools, number 221 (blue) and 652 (green).
